

FAASTeam presents:

2016 Wings Over the Willamette Independence Fly In and Vans Homecoming

Join the Portland FSDO FAASafety Team Program Manager, Curt Cowley, and Operations Inspector Joe Mollahan in an open forum about the FAA's New Compliance Philosophy. Bring your questions about compliance and play "Stump the Inspector!" in a town hall style meeting. The FAA is reducing its emphasis on enforcement for inadvertent violations, however, the FAA remains committed to vigorous enforcement of violations involving intentionally reckless behavior, falsification, and repeat failures.

The goal of this new philosophy is to encourage open and honest communication and information exchange between the general aviation community and the FAA. A similar approach has been used in commercial aviation for more than a decade, and has helped reduce risk in U.S. commercial aviation by 83 percent in the past 10 years.
